THE SYDENHAM RIVER

The head waters of the East Branch of Sydenham River are near Ilderton, about 13 km northwest of London. The main branch of the river is 165 km long. Back in the 60's and early 70's, the east branch was home to Fiddler's Green, a beautiful marina that hosted hundreds of Americans almost every weekend in the summer.

JOHN AND JAMES LEE

Wallaceburg is the home of the first Lee-Enfield Rifle ever made ... the river front echoed the very first test shot of this repeater rifle as it whistled clear across the river and into an oak tree. A plaque in Municipal Park now marks this 1878 event and the museum houses this important military artifact.
